MEMORANDUM FOR: Major General Herbert E. Wolff, USA  
Deputy Director, Operations  
National Security Agency  
Central Security Service

SUBJECT: CONTEXT

REFERENCE: NSA Serial: N0338, dated 18 March 1975

1. This is to acknowledge, with our thanks, the delivery of the first CONTEXT terminal and its installation in this Headquarters. The tests we conducted last Friday in conjunction with your operations center look very promising although this is only the beginning of a long series of tests.

2. We have made some suggestions regarding the editing program and understand that you are making other software refinements. We look forward to the delivery of the other set of equipment to be installed here so that we can begin testing a three-station network around the middle of May.

3. We are anticipating in June the use of CONTEXT in an exercise which will involve creating a national situation report.
